Application form

This form should be completed by a person or organisation who wishes to apply to Uisce Éireann for a water and/ or wastewater connection to be used for a new housing development. If completing this form by hand, please use BLOCK CAPITALS and black ink. Please note that this is a digital PDF form and can be filled in electronically.

Please refer to the **Guide to completing the application form** on page 13 of this document when completing the form.

* Denotes mandatory/ required field. Please note, if mandatory fields are not completed the application will be returned.

Section F | Supporting documentation

Please provide the following additional information (all mandatory):

| > | | ocation map: A site location map to a scale of 1:1000, which clearly identifies the land ructure to which the application relates. The map shall include the following details: | |
|---|-------|--|--|
| | a) | The scale shall be clearly indicated on the map. | |
| | b) | The boundaries shall be delineated in red. | |
| | c) | The site co-ordinates shall be marked on the site location map. | |
| > | and \ | ayout map(s) to a scale of 1:500 showing layout of proposed development, water network wastewater network layouts, additional water/wastewater infrastructure if proposed, ection points to Uisce Éireann infrastructure (if known). | |
| > | www | esign submissions as outlined in the Uisce Éireann Code of Practice for Water Infrastructure y.water.ie/watercodeofpractice and the Uisce Éireann Code of Practice for Wastewater structure www.water.ie/wastewatercodeofpractice. | |
| > | | esign calculations as outlined in the Uisce Éireann Codes of Practice for Water Infrastructure he Uisce Éireann Codes of Practice for Wastewater Infrastructure. | |
| > | Any | other information that would help Uisce Éireann assess this application. | |
| > | | er Plan of entire proposed development with phase of development associated with this cation is identified. | |
| > | addit | dule of house numbers, associated addresses applied for as part of this application and ional associated information. This must be provided in the template spreadsheet which is able from Uisce Éireann. | |
| > | | nceptual design of the connection asset from the proposed development to the existing efficiency fixed for the connection asset from the proposed development to the existing efficiency fixed for the fixed for the conflicts of the conflicts of the conflicts of the conflicts of the conflict of the confl | |

Section G | Declaration

I/We hereby make this application to Uisce Éireann for a water and/or wastewater connection as detailed on this form.

I/We understand that any alterations made to this application must be declared to Uisce Éireann.

If you wish to revoke consent at any time or wish to see Uisce Éireann's full Data Protection Notice,

The details that I/we have given with this application are accurate.

I/We have enclosed all the necessary supporting documentation.

Any personal data you provide will be stored and processed by Uisce Éireann and may be transferred to third parties for the purposes of the water and/or wastewater connection process. I hereby give consent to Uisce Éireann to store and process my personal data and to transfer my personal data to third parties, if required, for the purposes of the connection process.

| | | | | | | | | | | | | | | | | | | | | | | | | | |

Uisce Éireann will carry out a formal assessment based on the information provided on this form.

Any future connection offer made by Uisce Éireann will be based on the information that has been provided here.

Please submit the completed form to **newconnections@water.ie** or alternatively, post to:

Uisce Éireann PO Box 860 South City Delivery Office Cork City

Please note that if you are sending us your application form and any associated documentation by email, the maximum file size that we can receive in any one email is 35MB.

Please note, if mandatory fields are not completed the application will be returned.

Uisce Éireann is subject to the provisions of the Freedom of Information Act 2014 ("FOIA") and the codes of practice issued under FOIA as may be amended, updated or replaced from time to time. The FOIA enables members of the public to obtain access to records held by public bodies subject to certain exemptions such as where the requested records may not be released, for example to protect another individual's privacy rights or to protect commercially sensitive information. Please clearly label any document or part thereof which contains commercially sensitive information. Uisce Éireann accepts no responsibility for any loss or damage arising as a result of its processing of freedom of information requests.

Guide to completing the application form

This form should be completed by applicants requiring a water and/or wastewater connection to Uisce Éireann infrastructure.

The Uisce Éireann Codes of Practice are available at **www.water.ie** for reference.

Section A | Applicant details

- **Question 1:** Please state the Pre-Connection Enquiry (PCE) reference number provided during the Pre-Connection Enquiry Phase if applicable.
- **Question 2:** This question requires the applicant or company applying for a connection to identify themselves, their postal address, and to provide their contact details.
- **Question 3:** If the applicant has employed a consulting engineer or an agent to manage the application on their behalf, the agent's address and contact details should be recorded here.
- **Question 4:** Please provide the name, postal address, and contact details of the developer for the proposed new housing development.
- **Question 5:** Please indicate whether it is the applicant, the agent or the developer who should receive future correspondence in relation to the application.

Section B | **Site details**

- **Question 6:** This is the address of the site requiring the water/wastewater service connection and for which this application is being made.
- **Question 7:** Please provide the Irish Grid co-ordinates of the proposed site. Irish grid positions on maps are expressed in two dimensions as Eastings (E or X) and Northings (N or Y) relative to an origin. You will find these coordinates on your Ordnance Survey map which is required to be submitted with the application.
- **Question 8:** Please identify the Local Authority that is dealing with your planning application, for example Cork City Council.
- **Question 9:** Please provide the planning reference number granting your proposed development.
- **Question 10:** Please indicate if full planning permission has been granted. If "yes" enter the date it was granted.
- **Question 11:** Please provide details in relation to contaminated land on your site (if any); this will determine what pipe material will be appropriate in the vicinity of the contaminated ground.
- **Question 12:** Please indicate if this development is affiliated with a government body/agency, and if so, specify.

Section C| **Development details**

- **Question 13:** Please indicate if a phased building approach is to be adopted when developing the site. If so, please provide details of the phase master-plan and the proposed variation in water demand/ wastewater discharge as a result of the phasing of the development.
- **Question 14:** Please specify the number of properties proposed as part of this development.
- **Question 14.1:** Please specify which phase of the development this application is associated with.
- **Question 14.2:** Please specify the number of dwelling units associated with the overall development.
- **Question 15:** Please specify the number of connections required for different property/premises types by filling in the table provided.
- **Question 16:** Please indicate the approximate commencement date of works on the development.
- **Question 17:** Please indicate if the developer will install local infrastructure as defined under the Uisce Éireann Codes of Practice for Water Infrastructure and/or the Uisce Éireann Codes of Practice for Wastewater Infrastructure.

'Local infrastructure' means water supply and wastewater collection pipework and accessories infrastructure that is located within the boundary of the new development and which will be constructed to facilitate water supply or wastewater collection from the individual units within the development, excluding service connections.

Question 18: Please indicate the type of connection required by ticking the appropriate box and proceed to complete the appropriate section or sections.

Section D | Water connection and demand details

- **Question 19:** Please indicate if a water connection already exists for this site.
- **Question 19.1:** If yes, please indicate if this application is for an additional connection to one already installed on the site.
- **Question 19.2:** If yes, please indicate if you are proposing to upgrade the water connection to facilitate an increase in water demand. Uisce Éireann will determine what impact this will have on our infrastructure.
- **Question 20:** Please indicate the approximate date that the proposed connection to the water infrastructure will be required.
- **Question 21:** Please indicate what diameter of water connection is required to service this development. Please note that the connection size provided may be used to determine the connection charge.
- **Question 22:** Please indicate if more than one connection is required to service this development.
- **Question 23:** Please specify the ground level at the location where connection to the public water mains will be made. This is required to determine if there is sufficient pressure in the existing water infrastructure to serve your proposed development. Levels should be quoted in metres relative to Malin Head Ordnance Datum.
- **Question 24:** Please specify the highest finished floor level on site. This is required to determine if there is sufficient pressure in the existing water infrastructure to serve your proposed development. Levels should be quoted in metres relative to Malin Head Ordnance Datum.
- **Question 25:** If storage is required, water storage capacity of 24-hour water demand must usually be provided at the proposed site. In some cases, 24-hour storage capacity may not be required, for example 24-hour storage for a domestic house would be provided in an attic storage tank. Please calculate the 24-hour water demand and include your calculations on the calculation sheet provided. Please also confirm that on-site storage is being provided by ticking the appropriate box.
- Question 26: The water supply system shall be designed and constructed to reliably convey the water flows that are required of the development including fire flow requirements by the Fire Authority. The Fire Authority will provide the requirement for fire flow rates that the water supply system will have to carry. Please note that while flows in excess of your required demand may be achieved in the Uisce Eireann network and could be utilised in the event of a fire, Uisce Eireann cannot guarantee a flow rate to meet your fire flow requirement. To guarantee a flow to meet the Fire Authority requirements, you should provide adequate fire storage capacity within your development. Please include your calculations on the calculation sheet provided, and further provide confirmation of the Fire Authority requirements.
- **Question 27:** Please identify proposed additional water supply sources, that is, do you intend to connect to the public water mains, or the public mains and supplement from other sources? If supplementing public water supply with a supply from another source, please provide details as to how the Uisce Éireann potable water supply is to be protected from cross contamination at the premises.

Section E | Wastewater connection and load details

- **Question 28:** Please indicate if a wastewater connection to a public sewer already exists for this site.
- **Question 28.1:** If yes, please indicate if this application is for an additional wastewater connection to one already installed.
- **Question 28.2:** If yes, please indicate if you are proposing to upgrade the wastewater connection to facilitate an increased discharge. Uisce Éireann will determine what impact this will have on our infrastructure.
- **Question 29:** Please indicate the approximate date that the proposed connection to the wastewater infrastructure will be required.
- **Question 30:** Please indicate what diameter of wastewater connection is required to service this development.
- **Question 31:** Please indicate if more than one connection is required to service this development. Please note that the connection size provided may be used to determine the connection charge.

- Question 32: In exceptional circumstances, such as brownfield sites, where the only practical outlet for storm/ surface water is to a combined sewer, Uisce Éireann will consider permitting a restricted attenuated flow to the combined sewer. Storm/surface water will only be accepted from brownfield sites that already have a storm/surface water connection to a combined sewer, and the applicant must demonstrate how the storm/surface water flow from the proposed site is minimized using a sustainable urban drainage system (SUDS). This type of connection will only be considered on a case by case basis. Please advise if the proposed development intends discharging surface water to the combined wastewater collection system
- **Question 33:** If the development needs to pump its wastewater discharge to gain access to the Uisce Éireann infrastructure, please specify the pump flow rate, timings of discharge, and provide justification for the pumped solution on the calculation sheet provided.
- **Question 34:** Please specify the ground level at the location where connection to the public sewer will be made. This is required in order to determine if the development can be connected to the public sewer via gravity discharge. Levels should be quoted in metres relative to Malin Head Ordnance Datum.
- **Question 35:** Please specify the lowest floor level of the proposed development. This is required in order to determine if the development can be connected to the public sewer via gravity discharge. Levels should be quoted in metres relative to Malin Head Ordnance Datum.
- **Question 36:** Please specify the proposed invert level of the pipe exiting the property to the public road.

Section F| **Supporting documentation**

Please provide additional information as listed.

Section G | Declaration

Please review the declaration, sign, and return the completed application form to Uisce Éireann by email or by post using the contact details provided in Section G.
